

MALAV RANA

FRONTEND ENGINEER

New Jersey, United States | +1(201)-468-8422 | ranam211197@gmail.com | [LinkedIn](#) | [About me](#)

SUMMARY

Application-focused Frontend Engineer with 5+ years of experience designing and delivering scalable, high-performance web applications using React, Angular, Vue, Next.js, and TypeScript. Skilled in HTML5, CSS3, Tailwind, CSS Modules/Styled Components, JavaScript (ES6+), RESTful APIs, GraphQL, and front-end optimization. Experienced in fast-paced, cross-functional teams, building polished, accessible, and maintainable solutions that improve usability, reduce errors, and enhance client outcomes. Passionate about performance, testing (Jest, React Testing Library, Playwright), and modern frontend tooling (Webpack, Vite, CI/CD), thriving in enterprise environments that value quality and continuous learning.

EDUCATION

Montclair State University

Sep 2016 - May 2020

Bachelor of Science in Computer Science, Montclair

TECHNICAL SKILLS

- React.js
- Next.js
- CSS3
- Responsive & Adaptive Design
- GraphQL
- Browser Debugging Tools
- React Testing Library
- Bitbucket
- Docker
- State Management (Redux / Context)
- Vite
- Prettier
- Web Fundamentals (Event Loop, HTTP, Caching)
- GitHub Actions
- Performance Monitoring (Lighthouse / Web Vitals)
- Angular
- JavaScript (ES6+)
- Bootstrap
- Accessibility (WCAG)
- Client-side Data Handling
- Performance Optimization
- Unit & Integration Testing
- Webpack
- Jenkins
- React Hooks & Advanced Patterns
- Babel
- npm / yarn
- Frontend Security (XSS, CSRF, CORS)
- Figma (Design Handoff)
- Vue.js
- HTML5
- Tailwind CSS
- RESTful APIs
- Form Validation
- Jest
- Git
- AWS
- TypeScript
- End-to-End Testing (Playwright / Cypress)
- ESLint
- CSS Modules / Styled Components
- Authentication (JWT, OAuth)

PROFESSIONAL EXPERIENCE

Frontend Engineer | Kiswe

Summit, NJ

Sep 2024 - Present

- Developed live streaming web applications using React, Vue, TypeScript, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, supporting high-traffic events with zero downtime.

- Implemented interactive, state-driven workflows with Redux/Context, reducing user errors by 25% and ensuring smooth cross-device interactions.
- Integrated RESTful APIs for real-time updates, improving client-side responsiveness by 30%.
- Optimized performance with reusable components, lazy loading, code splitting, and Vite, maintaining fast experiences under heavy load.
- Ensured WCAG-compliant accessibility and fully responsive design, increasing engagement across devices.
- Maintained high-quality releases through unit, integration, and end-to-end testing (Jest, React Testing Library, Playwright).

Frontend Engineer | Gensler

Morristown, NJ

Jul 2022 - Sep 2024

- Delivered enterprise-grade web interfaces with React, Angular, Vue, Next.js, TypeScript, HTML5, CSS3, Bootstrap, Tailwind CSS, CSS Modules / Styled Components, ensuring maintainable, high-performance solutions.
- Designed and implemented responsive, WCAG-compliant UIs, improving usability and consistent cross-device experiences.
- Managed client-side state and data flow with GraphQL and REST APIs, enabling faster, more reliable backend communication.
- Optimized application performance with lazy loading, code splitting, and front-end optimization, reducing load times by 35%.
- Implemented automated testing (Jest, React Testing Library, Playwright) to catch bugs early and accelerate releases.
- Collaborated with designers via Figma to deliver pixel-perfect, production-ready interfaces.

Frontend Engineer | Cigna Express Scripts

Franklin Lakes, NJ

May 2021 - Apr 2022

- Developed interactive checkout and confirmation workflows for online pharmacy applications using React, TypeScript, HTML5, CSS3, JavaScript (ES6+), improving usability and reliability.
- Integrated client-side logic with RESTful APIs for real-time updates and seamless backend communication.
- Implemented form validation, state-driven UI logic, and reusable components, reducing checkout errors and improving workflow efficiency.
- Optimized performance with lazy loading, code splitting, and efficient component design, cutting page load times by 30-40%.
- Maintained high-quality releases with unit, integration, and end-to-end testing (Jest, React Testing Library, Playwright), minimizing production issues.

Frontend Engineer | Atmiya Care Charity

Parsippany, NJ

Sep 2020 - May 2021

- Delivered custom web solutions using React, HTML, CSS, JavaScript (ES6+), supporting donation and community engagement platforms.
- Integrated RESTful APIs to deliver dynamic, real-time user experiences.
- Implemented responsive and WCAG-compliant interfaces, improving accessibility across devices.
- Optimized front-end performance and maintainability with reusable components and modular architecture.
