

MALAV RANA

SOFTWARE ENGINEER

New Jersey, United States | ranam211197@gmail.com | [2014688422](https://www.linkedin.com/in/malav-rana-2014688422) | [LinkedIn](#)

PROFILE

Application-focused Frontend Engineer with 4+ years of experience building scalable, high-performance web applications using React, Angular, and Vue. Strong background in HTML, CSS, JavaScript, RESTful APIs, and front-end performance optimization. Experienced working in fast-paced, cross-functional teams, delivering polished solutions that improve usability, reliability, and client outcomes. Well-aligned with enterprise environments that value accessibility, maintainability, and continuous learning.

EDUCATION

Montclair State University

Sept 2016 — May 2020

Bachelor of Science in Computer Science, Montclair

TECHNICAL SKILLS

React.js	Angular	Vue.js	Next.js
JavaScript (ES6+)	HTML5	CSS3	Bootstrap
Tailwind CSS	Responsive & Adaptive	Accessibility (WCAG)	RESTful APIs
GraphQL	Design	Form Validation	Browser Debugging Tools
Performance Optimization	Client-side Data Handling	React Testing Library	Unit & Integration Testing
Git	Jest	Webpack	AWS
Docker	Bitbucket		
	Jenkins		

PROFESSIONAL EXPERIENCE

Frontend Engineer, Kiswe

Sept 2024 — Present

New Jersey

- Designed, developed, and deployed custom web applications using HTML5, CSS3, JavaScript (ES6+), React, and Vue, delivering scalable front-end solutions aligned with business requirements.
- Implemented complex client-side logic, interactive workflows, and form validation to ensure seamless user interactions across browsers and devices.
- Integrated and maintained RESTful APIs for real-time data handling and smooth client-side interaction with backend systems.
- Optimized front-end performance through reusable components, efficient code structuring, and browser debugging tools to improve reliability during high-traffic live events.

Frontend Engineer, Gensler

Jul 2022 — Sept 2024

New Jersey

- Built enterprise-grade web interfaces using React, Angular, Vue, and Next.js, following modern front-end development best practices.
- Developed responsive, adaptive UIs with HTML5, CSS3, Bootstrap, and Tailwind CSS, ensuring accessibility and consistent UX across devices.
- Managed client-side data manipulation and querying through RESTful APIs and GraphQL, enabling efficient communication with backend services.
- Improved performance and stability through front-end optimization techniques, automated testing with Jest, and use of browser debugging tools.

Frontend Engineer, Cigna Express Scripts

May 2021 — Apr 2022

New Jersey

- Designed and implemented interactive web workflows for online pharmacy applications using React, HTML5, CSS3, and JavaScript (ES6+).

- Built and maintained client-side integrations with backend services using RESTful APIs, supporting accurate real-time updates.
- Implemented form validation, state-driven UI logic, and client-side data handling to ensure reliable, user-friendly checkout experiences.
- Applied performance optimization techniques (e.g., lazy loading, code splitting) to reduce load times and improve responsiveness.

Frontend Engineer, Atmiya Care Charity

Sept 2020 — May 2021

New Jersey

- Developed and deployed custom web solutions using React, Angular, HTML5, CSS3, and JavaScript to support donation and community engagement platforms.
- Implemented RESTful API integrations and client-side data handling to deliver dynamic, real-time user experiences.
- Ensured compliance with accessibility (WCAG) and responsive design principles across browsers and devices.
- Collaborated with cross-functional stakeholders to troubleshoot issues and deliver polished, production-ready web applications.
